

About Us

We were founded with the belief that every child, regardless of their needs, can reach and exceed their maximum potential. Our therapies are a direct reflection of that philosophy and how we approach every child.

We offer a wide range of therapies and approaches that are custom designed for your children. Through the Applied Behavioral Analysis (ABA Therapy) approach we can help in several critical areas:

- Behavior Modification
- Verbal Behavior
- Language Therapy
- Social Skills Training
- Preschool and Grade School Readiness Programs
- IEP Development and School Advocacy
